B Change at Barnham

CH 1406 and 1506 from Victoria stop at Christ's Hospital at 1508 and 0608

Change at Barnham to arrive Bognor at 1934

Most through trains from Victoria and London Bridge divide at Horsham with a portion running fast to Barnham (for Chichester Portsmouth or Southampton). The other portion runs to Bognor stopping at those intermediate stations shown. Where a train runs to Chichester or Bognor throughout without dividing a change of trains at Barnham will be necessary and arrival times are in italics and are shown with a **B**. The exception to this rule is the 2206 from Victoria which runs throughout to Barnham and divides these into Chichester and Bognor portions

Ifield, Faygate, Littlehaven, Fishbourne and Bosham those peak hour through trains that stop there.
